8. BlendJet's privilege log.

As BlendJet has previously stated, it is not presently withholding any responsive non-custodial documentation on the basis of the attorney-client or work product privileges. To the extent that BlendJet possesses custodial ESI documentation that contains a search term hit and falls within the scope of the documentation that BlendJet has agreed to produce in response to Blendtec's requests for production, and that contains privileged materials, BlendJet will produce a privilege log referencing that documentation in accordance with Fed. R. Civ. P. 26(b)(5), at the appropriate time.

Very truly yours,

Patrick McGill
